Little Lessons from Triple G Farms

A Storytime Learning Guide

Classroom Edition

Bella the Busy Bee

A Buzzing Adventure at Triple G Farms

Today's Big Lesson

Even the smallest creatures can make a big difference! Bees work hard to help plants grow, and they are an important part of our world.

Let's Talk About the Story

1. What did Bella teach us about bees?
2. How did MayBelle, Amos, and Gertrude help Bella?
3. Why are bees important to the farm and to our food?
4. What was your favorite part of the story? Why?

Did You Know?

- Bees carry pollen from flower to flower.
- Pollination helps plants make fruits, vegetables, and seeds.
- Bees are gentle and usually only sting if they feel threatened.
- We can help bees by planting flowers and being kind to their habitats.

Amazing Bees!

There are many kinds of bees, and they all help our world. Bees pollinate plants, which helps grow the food we eat and keeps our environment healthy.

Our Little Lesson:

Small actions can make a big difference. We can all help protect bees and the plants they depend on!

Fun Activities to Help Us Make a Difference

Classroom Edition

Activity 1: Bees and Flowers

Ages 3–5

Draw a picture of Bella visiting flowers. You can add as many flowers as you like and color the picture.

Activity 2: How Bees Help

Ages 6–8

Bees help plants grow and give us food. Make a list or draw pictures of five foods that rely on bees for pollination.

1. _____
2. _____
3. _____
4. _____
5. _____

Kindness Challenge

This week, do one or more of these kind things:

- ☐ Plant a flower or help in a garden.
- ☐ Learn a new fact about bees.
- ☐ Be gentle and careful around insects.
- ☐ Help protect places where bees live by keeping them clean.
- ☐ Share what you learned about bees with a friend or family member.
